PROPOSALS

For publishing, in the Uity of polis, A Periodical Work, to be entitted;

THE RELIGIOUS AND LITE. RARY REPOSITORY.

To be edited by a society of Laymen members of the Protestant Episcopal Church.

The leading views of the Editors are stat-The feating views of the range of the persons, who will be actively employed in the selection of the matter for publication.

The Religious Magazines which have been heretower published by members of

the church, are, some of them, very useful the entreth, are, some of them, as far as they go. My objection to them is, that they do not attempt to give us information, of which the laity, and indeed clergy, stand in much need, and which is with the design of the property of the control of great difficulty to be obtained. In this country the faity have a considerable parti-cipation in the affairs of the church, and ought to possess an intimate knowledge of its history, constitution and laws. As church wardens, and trustees or vestrymen as well as delegates to the convention, they have important and very solemn duties to perform, and with a knowledge of these luties, it ought to be the business of thes duties, it ought to be the business of these magazines to furnish them. The subjects usually discussed in them have already been explained and entorced by pious and learned divines, with as much ability as could be expected from more modern writers, and a knowledge of what we are ato believe and do in order to be saved," may be communicated to our readers as well by selections, as by any original matter which we might be able to offer to them. From the writings of approved divines, not al ways to be met with, even in possession o ways to be met with, even in possession of the clergy, we shall most frequently collect what it is deemed necessary to give on christian doctrine and duty. The magazine will aim to be useful, and desires no other

reputation.

Ican induced to hope that, besides furnishing the laity with useful information in tegard to the duties which are imposed upon them, some kints, worthy of their atten-tion, may occasionally be given to the cler-gy. While they act up to their ordination yows; endeavour to frame and fashion their lives according to the doctrine of Uhrist, to make themselves wholesome examples of the flock of Christ, and reverently obey their Bishops, following with a glad mind and will, their godly admonitions, they de-serve, and there is in the laity of the church serve, and there is in the laity of the church of Maryland generally, every disposition to honour and support them. If, however, at any time, any of them forget to pay due regard to their own solemn engagements, and instead of loving to "dwell together in unity," a design should be manifested to introduce disorder and misrule into the church, to oppose its legitimate authority, or to assume nowers which do not belong or to assume powers which do not belong to them, then it is not only the right, but it becomes the imperative duty of the laity, to animadvert upon such conduct with un-

sparing severity.

Approving entirely of the forms prescrib-ed, and of the doctrines agreed to by our Church, it will be no part of the business of the Magazine to recommend or even to connive at, any new inventions, whether in tenets, or discipline or worship.
